Teaching and Mentoring

Learners

Residents

In the ED at Cincinnati Children's I precept residents from the CCHMC Pediatric Residency Training Program as well as those from the University of Cincinnati Emergency Medicine Residency and other residents rotating from outside institutions.

As the Emergency Department Rotation Director I am responsible for the managing the residents' curriculum, orientation, evaluations and other administrative issues for over 180 pediatric residents, 50 emergency medicine residents, and three dozen outside rotating trainees.

Pediatric Emergency Medicine Fellows

I supervise fellows in the Emergency Department specifically overseeing patient care, ED flow coordination and supervision of residents.

Materials

Emergency Department Rotation Curriculum and Evaluations

The curriculum for the Emergency Department rotation at CCHMC is unique in that it combines bedside teaching with faculty and fellows, thrice monthly protected time for didactic and simulation-based education, and a robust online curriculum, consisting of a blog, videos and podcasts. Residents can stay apprised of updates to the online components by subscribing to the websites, or by following on Twitter @PEMTweets or Facebook.

Bimonthly Friday Morning Education Sessions

One-half of our educational sessions feature three faculty/fellow physicians giving

traditional, yet interactive didactic presentations. The other half consist of small group resident only high fidelity sims (which I facilitate) and procedure skills stations. Up to 20-25 residents attend each session and the content is guided by the American Board of Pediatrics content specifications for Emergency Medicine as well as resident feedback.

Medical Video Review

Residents attend our monthly Emergency Medicine Divisional conference lead by members of the Medical Resuscitation Committee. We review a recent video from the Shock Trauma Suite and discuss specific treatment and diagnostic considerations for critically ill patients in the ED.

PEMBlog

A Pediatric Emergency Medicine educational website that I started in August 2012. Since then the more than 400 posts have been viewed over 300,000 times. I have readers from multiple health professions in dozens of countries.

PEM Currents

My Pediatric Emergency Medicine podcast featuring brief, focused teaching on key topics in Pediatric Emergency Medicine. It has been widely cited on educational websites and was named best Pediatric Emergency Medicine podcast in Academic Emergency Medicine.

Videos

My self-produced and edited educational videos are hosted on Vimeo (www.vimeo.com/pemcincinnati) and YouTube. They include both brief didactic presentations and procedural instruction. I have also produced instructional videos for the evaluation of residents at CCHMC and an online orientation to the ED rotation.

I also produced a series of instructional procedure videos for the AAP's PediaLink. Topics include; IV insertion, Intramuscular and Subcutaneous Injections, Bag Mask Ventilation, UVC, Splinting, Lumbar Puncture and Endotracheal Intubation.

Emergency Department Rotation Evaluations

We developed an online evaluation for the more than 250 trainees that rotate through the Emergency Department in order to capture shift based evaluations by their attendings and fellows. It features a customized Qualtrics survey optimized for mobile devices and after initial deployment in 2013 has been maintained with an eye towards ongoing improvement initiatives designed to increase and maintain faculty evaluation complete rates. The data we have amassed has helped us identify areas for improvement in dozens of residents in a manner that our previous processes couldn't achieve.

Mentoring

- 2012 - present CCHMC Pediatric Resident Faculty Advisor
Kirsten Loftus Current Fellow in PEM at CCHMC
Tara Kopp Current Fellow in PEM at CCHMC
Jay Conhaim CCHMC Pediatric Residency Graduate in 2017

CCHMC Medical Resuscitation Committee's Medical Video Review

Medical Video Review is presented multiple times a year by members of the Medical Resuscitation Committee of the Division of Pediatric Emergency Medicine at Cincinnati Children's. A physician and nurse review recent cases of critically ill patients seen in the resuscitation area of the Emergency Department. The format is didactic and interactive. Attendees include faculty and fellows from the Division of Emergency Medicine at CCHMC as well as residents, nurses, pharmacists, respiratory therapists and other personnel that participate in the care of critically ill patients in the ED.

Shunt Malfunctions - February 28, 2012

Pressing Matters - September 25, 2012

Selected topics in sepsis (Fluids, Lactate and Procalcitonin) – May 28, 2013

Take a deep breath: Non-invasive respiratory support in the ED – November 26, 2013

DKA – November 25, 2014

Upper GI Bleed – May 26, 2015

Bradycardia and Hypothermia – July 25, 2017

CCHMC Division of Emergency Medicine Journal Club

Journal Club is presented monthly by the fellows of the Division of Emergency Medicine at CCHMC. Fellows are mentored by Emergency Medicine faculty, and the topics and article selection are themed around core Evidence Based Medicine topics.

Clinical Questions - June 9, 2009 – Topic: Septic Shock
Clinical Questions - August 13, 2009 – Topic: MRSA Skin and soft tissue infections
Harm - February 11, 2010 – Topic: High Flow Nasal Cannula in bronchiolitis
Strength in Numbers - September 9, 2010 – Ondansetron and hospital return rates

Fellows Conferences

Presented on a recurring basis to the fellows and faculty of the Division of Emergency Medicine at CCHMC. Topics are focused on the core curriculum for Emergency Medicine fellowship training.

Case Conference: Back Pain - November 5, 2008
Toxicology Conference: Skeletal Muscle Relaxants - February 4, 2009
Fellows Board Review: Are You Smarter Than a Peds Attending? - February 4, 2009
EBM Conference - Clinical Questions - August 6, 2009
Case Conference: Acute Scrotal Pain - September 10, 2009
EBM Conference: Harm - February 4, 2010
Board Review - February 25, 2010
Case Conference: Mandibular Injuries - June 3, 2010
Board Review: EKGs - January 6, 2011

I developed an educational website (physicalexamtoolkit.com) focused on the physical exam for residents rotating through the inpatient Hospital Medicine teams. We also gathered usage and experiential data and used our experience to offer advice on the design of educational websites.

This study detailed our efforts to develop an online orientation for residents rotating through the Emergency Department at Cincinnati Children’s Hospital Medical Center. Following a targeted needs assessment, we developed a multimedia orientation to address the challenges of orienting 30-40 residents from a multitude of training levels and programs to our ED. The current version is live at pemcincinnati.com/orientation. This study was also my Masters in Education thesis. I learned quite a bit about the full process of curriculum design.

A multi-site Solomon four group design whereby we randomized residents working in the ED to access to online educational modules. Module use improved post test scores in those randomized to the intervention, and ultimately we noted that web-based asynchronous e-learning potentially has the ability to standardize education among multiple institutions with common curricula, especially in the ED – a rotation that is far from standardized. Through participation in this study I was exposed to new methodology, and met new colleagues and friends that I continue to work with.
